Cuticura Soap

WORLD-FAMOUS FOR DAILY TOILET USE

This every-day use of Cuticura Soap, assisted by occasional applications of Cuticura Ointment, when required, is your best insurance against skin troubles. They not only cleanse and purify, but also enhance and preserve the natural qualities of the skin and hair.

Soap 25¢. Ointment 75¢ and 25¢. Talcum 25¢. Sold everywhere. Sample free. Address: Cuticura, Inc., Montreal.

WORLD HAPPENINGS BRIEFLY TOLD

Lord Revelstoke, who died recently in Paris, where he was attending the meeting of the reparations conference, left half a million dollars to King Edward's Hospital fund for London.

The estimates tabled in the Newfoundland legislature provide for a total expenditure for 1929-30 of \$10,447,706 as against \$10,438,139 for 1928-29. The total funded debt of the colony is \$81,424,149.

The British ship "Cyclamen" has left Irak to protect British subjects in Abadiah, Persia, where mobs had got beyond control of police. Persian troops have been called to restore order.

Profound secrecy surrounds the building programme of the French Air Ministry. Everything around the Ministry building is in a turmoil and aviation factories are working day and night to carry out the programme.

A country-wide search for Miss Barbara Pithers, missing McGill University student who disappeared in Montreal, March 21, was brought to an end with the finding of the young woman's body in Back River, near a convent at Sault au Recluse.

To provide an outlet for surplus stocks of potatoes, the New Brunswick Department of Agriculture is encouraging the erection and operation of starch plants in the potato raising sections as a means of taking care of the small and otherwise unmarketable potatoes from the crop of succeeding years.

The Nationalist government state council announced that henceforth decapitation as a method of execution in China would be prohibited. Decapitation had been discarded by previous regimes but it was still used by the police and military authorities for executing bandits and robbers. Its complete abolition has now been ordered.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from prying corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. It is afflicted with corns, calluses or sore foot-pumps, use PUTNAM'S—it's reliable, and sure to shroud up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25¢ at all dealers.

Alberta Pool Elevator
The Alberta Wheat Pool made a definite start the other day in extending its country elevator system, when it was officially announced that it is of these elevators had been contracted for and 12 others bought over from different interests.

"Why couldn't they get on, together?"
"Well you see, he's a Scot and she would persist in washing out his shaving brush every morning."

British piano manufacturers have captured both the American and New Zealand markets from their American rivals.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acid. But don't use crude helps. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

Magnetic North Pole Reached By Canadian

Wireless Message Has Been Received From Major Burwash

A wireless message from under the mythical shadow of the Magnetic North Pole is the latest achievement of Canadian science.

Within a hundred miles of the place where Sir John Franklin and his men disappeared and died, Major L. T. Burwash, Canadian explorer, engineer and scientist, has sent word to the Northwest Territories branch of the ministry of the interior of his safety and whereabouts.

Major Burwash went into the Arctic alone over a year ago to make scientific observations at the Magnetic Pole, and to search for further relics of the Franklin expedition. Where Franklin and his men perished and died of starvation, Burwash lived on and carried out his scientific mission. He has now been ordered by wireless to make an investigation into the long-famed copper deposits along the Coppermine River.

Search For the Brightest Boy

Thos. Edison To Grant Scholarship To Candidate Passing Test

Thomas A. Edison, grown grey in achievement and fame, has started out to find a boy to whom he may pass on some day the torch of his genius. He started a search for the brightest boy in the United States. When he finds him, he is going to send him to college first of all.

A scholarship, taking care of all tuition fees for four years at whatever technical school the winner wishes to enter, will be awarded the high school or preparatory school boy who most intelligently answers a questionnaire to be made up by Mr. Edison.

The winner will be one of 49 to be picked, one from each state and one from the District of Columbia.

Mr. Edison will pay the expenses of all 49 boys from their homes to his laboratory at Orange, N.J., about August 1. There he will put to them his questionnaire.

Okanagan Fruit Prospects

Despite hard winter weather there is very little injury to the fruit trees of the Okanagan Valley, and indications are for a fair setting of all fruit with fine prospects for the apple crop at the southern end of the valley.

Heck—A producer says that the movie of the future will be a combination of silence and sound.
Peck—I see. Like a man carrying on an argument with his wife.

Nation-Wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

People expect too much of a boy who is at the growing age. When he has done his eating and his growing he has put in a pretty full day.

We would say that a stable government is one in which the people remain kitched.

Canada's latest and most impressive practical record in air is its speedy delivery of air mail and Capt. D. S. Bondurant, pilot for Canadian Airways (subsidiary of International Airways of Canada, Limited), as a result of a record flight between Toronto and Montreal, now holds the world's air mail speed record.

Capt. Bondurant, flying a Fairchild "71," powered by a Pratt & Whitney Wasp engine, on March 21st, covered the 340 miles from Toronto to Montreal in just one hour and forty-four minutes, and this has now been established as the world's fastest air mail flight.

Remarkable as this time is, Capt. Bondurant would have bettered it, but for fog encountered a little over 100 miles from Montreal. Up to this point he has flown 215 miles in just 60 minutes, maintaining a speed of over 315 miles a minute.

Throughout the record-breaking flight Capt. Bondurant reported perfect performance from his plane which was fueled with Imperial Aeroplane Spirits and lubricated with Imperial Motor Oil.

Products which have become the almost universal preference of Canadian aircraft operators who choose them for 99 out of every 100 miles flown in Canada.

The work of keeping the International Boundary between Canada and the United States in a state of effective demarcation was made one of the functions of the International Boundary Commission by a treaty signed at Washington on February 24, 1925.

An English physician claims that crying is good for one's complexion, provided, of course that one's complexion is one's complexion.

Canadian Legion

Dominion Convention To Be Held in Regina In November Of This Year

The Dominion Convention of the Canadian Legion R.E.S.L. will be held in Regina on November 20th, 1929.

To those ex-service men who are not members of the Legion, the present is an opportune time to become identified with the organization that has done much to promote the welfare of returned men, their widows and dependents.

The work of the Legion is, but rather is growing. The membership likewise is increasing and particularly so in Saskatchewan since the Provincial Convention, but in the provinces there are still a great many of men who are eligible to join, and who have not as yet identified themselves with the organization, possibly due to lack of opportunity to do so.

With the increase of branches throughout the province, there is now local representation in practically every district, and the provincial secretary, Canadian Legion, Regina, will be pleased to advise anyone, on request, of the nearest local branch.

Unity among returned men was accomplished when the Canadian Legion came into being some years ago. All that remains is to complete the membership and make the organization even more representative than it is today.

On its record of achievement alone, the Legion deserves the support of all ex-service men, and it is hoped that the next few months will see every eligible man in Saskatchewan enrolled. The dues are nominal, but the presence of every returned man in the ranks of the Legion will be of the utmost value in furthering the aims and objects of the organization, and in promoting that comradeship which is one of its biggest assets.

Useful In Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pain in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

A dentist is the only person who can tell a woman to open and shut her mouth at will and get away with it.

CANADIAN AIR MAIL PLANE ESTABLISHES WORLD'S RECORD

Canada's latest and most impressive practical record in air is its speedy delivery of air mail and Capt. D. S. Bondurant, pilot for Canadian Airways (subsidiary of International Airways of Canada, Limited), as a result of a record flight between Toronto and Montreal, now holds the world's air mail speed record.

Capt. Bondurant, flying a Fairchild "71," powered by a Pratt & Whitney Wasp engine, on March 21st, covered the 340 miles from Toronto to Montreal in just one hour and forty-four minutes, and this has now been established as the world's fastest air mail flight.

Remarkable as this time is, Capt. Bondurant would have bettered it, but for fog encountered a little over 100 miles from Montreal. Up to this point he has flown 215 miles in just 60 minutes, maintaining a speed of over 315 miles a minute.

Throughout the record-breaking flight Capt. Bondurant reported perfect performance from his plane which was fueled with Imperial Aeroplane Spirits and lubricated with Imperial Motor Oil.

Products which have become the almost universal preference of Canadian aircraft operators who choose them for 99 out of every 100 miles flown in Canada.

The entire world recognizes that, in proportion to her population, is making greater practical use of aircraft, than any other country and the "work" records of Canadian airplanes are regarded as even more important contributions to the advancement of aviation than the endurance and other stunt achievements of other countries.

Canada's latest and most impressive practical record in air is its speedy delivery of air mail and Capt. D. S. Bondurant, pilot for Canadian Airways (subsidiary of International Airways of Canada, Limited), as a result of a record flight between Toronto and Montreal, now holds the world's air mail speed record.

FOR ALL your baking, use MAGIC BAKING POWDER

Made in Canada - No Alum!

Recipes For This Week

(By Betty Barclay)

FRUIT OMELET

1 egg.
Few gratings orange rind.
1 teaspoon orange juice.
Few grains salt.

1 orange.
2 teaspoons butter.
2 teaspoons powdered sugar.

Beat the egg slightly, adding the orange rind and juice and salt. Peel the orange, removing all white membrane, and cut into very thin slices. Sprinkle with one teaspoon of the powdered sugar. Melt the butter in not individual omelet pan or frying pan. Pour in the egg mixture and cook over a low heat, shaking the pan and pricking the mixture with a fork until all the mixture is cooked. Roll or fold and turn out on to serving dish. Sprinkle with remaining sugar and surround with slices of orange.

A BALANCED MEAT DISH

Shred one pound of lamb, beef or pork and brown in its own fat in a frying pan. Add one cup of chopped celery and celery tops, one tablespoon minced onion and one tablespoon salt. Cover and cook about ten minutes. Add two tablespoons flour and two tablespoons butter mixed together and two cups canned strained tomato juice. Stir until the mixture is thick and bubbling, then serve.

Saskatchewan Hemp

Feasibility Of Hemp Growing Has Been Demonstrated

With the object of promoting hemp growing in the district, the Rosthern Board of Trade has instructed its secretary to purchase and distribute quantities of hemp seed. The feasibility of hemp growing in the industry has been demonstrated by seven farmers in the area who have all had plots of four acres under cultivation. Although the seed was not sown until June last year, a month late, the hemp grew 13 feet in height. The Provincial Government is assisting in building up the industry. The nearest factory is at Portage La Prairie, Manitoba.

Short of Breath

Smothering Feelings Choking Sensation

Mrs. H. Day, Dartmouth, N.S. writes—"For over a year I was suffering with smothering spells and shortness of breath, and it was impossible for me to walk, even a short distance, because of the choking sensation which followed.

After trying many treatments, in vain, I at last decided to try

MILBURN'S HEART NERVE PILLS

and in a surprisingly short time they did me much good.

Price 50¢ per box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Customer—You say this material is the very latest fashion?

Assistant—The very latest madam.

But will it fade in the sun?

No, it's been in our window for two years.

When intensely angry and searching for a fitting word to express your self, say "Roosevelt," which, we are reliably informed, is the biggest dam knoer.

A musical mile is 6,000 feet, or 600 feet more than a land mile.

SUNDAY SCHOOL LESSON

MAY 19

JEREMIAH CALLS TO OBEDIENCE

Golden Text: "Hearken unto my voice, and I will be your God, and ye shall be my people."—Jeremiah 7: 23.

Lesson: Jeremiah 7: 1-28.

Devotional Reading: Psalm 96: 7-13.

Explanations and Comments

Outward Ritual Is Not Religion, verses 1-4.—Jeremiah felt impelled to stand at the gate of the temple and warn the people. To all who entered in at these gates to worship in the temple, Jeremiah cried: "Thus saith Jehovah of hosts, the God of Israel, among your ways and your doings (a favorite expression with Jeremiah), and I will cause you to dwell in this place in vain, not being carried out into exile. Trust not in the lying words of false prophets who declare unto you that God will never permit this holy temple to be destroyed." The threefold repetition of the words "the temple of Jehovah" suggests the energy of iteration that belongs only to Eastern finalities. Thus, the prophet calls the repeated cries of the fanatics in the theatre at Ephesus, "Great is Diana of the Ephesians" (Acts 19: 28).

"Is it not thus that the children of godly parents presume on the results of ancestral piety? Is it not thus that evil-living men will risk the consequences of sin, because they are prepared to make liberal gifts to the temple? Thus, the prophet, the reformer, the avenger, the avenger, have all, in one form or another, administered sedatives to conscience, saying: 'The temple of the Lord! The temple of the Lord!—F. B. Meyer.

There Must Be Obedience To The Covenant Of Old, verses 5-7.—The continued security of the people in the land of their fathers would depend upon their reforming and practicing the social virtues, Jeremiah declared.—the security of justice between a man and his neighbor, the freeing from oppression of the stranger, the fatherless and the widow, and the avoidance of the shedding of innocent blood—and also upon the avoidance of the worship of false gods. The stranger was the sojourner from away, the alien resident temporarily in Judah. He and the fatherless with the widow had no voice in the administration of affairs and could be easily oppressed.

"As the potter has power over the clay to make and to change as he pleases, so is the nation in the hands of God. He will with us as seems best to Him. It is not for us to try to mould the national life and purpose without God, and this is the sin of the nation whose hands the nations of the world have been given: it is for us to make sure that we have the right with God and that we have the spirit of submission and obedience to Him. He will command us to do the vessel of honor, for the hands of God will be moulding the clay on the wheel."—The Youth's Companion.

CHAPTER XIX—Continued.

Connie had rehearsed this moment a thousand times. She stood quietly on the steps for a moment, then slipped gracefully to the platform. Connie herself could not have imagined how changed she was. From coffee to dainty French heels she was dressed as if fresh from the hands of an expert Parisian couturier. So dazzling was she that she positively took Donald's breath away. It seemed to him that she had grown like a magic rose, all at once from a tiny bud to a full blossom. No fault could be found with the perfect oval of her face, or with the delicate white rose skin, from which every trace of tan had gone. The long lashes that fringed her big blue eyes had turned a shade darker than the curling waves of her abundant golden hair. And, whose small, moved hands had been hidden in the rear, moved hastily forward, rumbling the wide hat held in his hand. "Hello, Connie," he murmured, his lips parted in a wide smile of welcome.

Instantly Connie forgot her assumed dignity and became her warm, impulsive little self. With a glad cry she flung her arms about Andy's neck and kissed him.

"Strike me pink!" breathed Andy, as his hand stole up to touch the spot where Connie's lips had brushed his cheek.

Connie turned to face the lake. "Oh, Dad!" she cried in ecstasy. "Isn't it good to be back here again?" She stretched her arms toward the ice-clad peaks. A gentle breeze swept down the wooded slope to fan her face as though in welcome. The blood surged beneath her smooth white skin and went singing through every vein. "Ah!" she sighed happily, as she inhaled a deep breath of air laden with the odour of pine from the hills she loved. Donald, gazing at her hungrily, saw tears brimming under her long lashes.

From the far end of the train a tall, grey-haired man assisted a slender, sweet-faced woman to the ground, and then walked towards the station. As they stepped to the platform the woman's eyes rested on Donald, who stood with his back to her. Instantly she became rapt to the spot, eyes wide, one hand fluttering toward her heart. With the supreme, wondrous mother-love shining in her eyes, she held out her arms.

"Donald!" she cried passionately. Donald whirled at the sound of the loved voice calling his name. His heart throbbed wildly, his throat felt constricted and his face paled under stress of strong emotion.

Simple Precautions Against FLU

Sore Throat —

— The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease-breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

"Mother"

His arms were around his mother, yearning, tender, hungry after these long months of separation. Her face upturned to his was white and drawn, but her eyes shone with halcyon joy. He felt his hand gripped in his father's strong fingers, and saw his eyes shining with tears. John McLean patted his boy's dark head with a shaking head.

"Don't! My boy, Donnie!"

For some time Donald was oblivious to all save the great happiness of meeting his parents. His mother's embrace almost unmanned him, and it was with difficulty that he kept back the sobs that tightened his throat.

He led his parents to the other end of the platform and introduced them to his friends.

Robert Rennie's comments were simply gasps and a reiterated, "Well, Well!"

Andy offered his usual contribution. "Strike me pink!" he said.

Connie's eyes were filled with soft eagerness as she greeted Donald's mother. The glow in Donald's face as he spoke to Connie was poignant, significant of his deep love for her. But Connie, to his consternation and dismay, met his radiant glances with a look of cold indifference.

Since Connie's arrival Janet's features held a look of disquietude, but she acknowledged the introduction to Donald's parents with a radiant smile.

A moment later, Connie, with skirts held high, was running down the railroad track.

"Going after her horse," smiled Wainwright in answer to Donald's question.

"Will you have dinner with us?" invited Donald.

"Yes, thank you," responded Wainwright. "We will sleep in the car to-night," he continued, "but Constance insists that we must return to the old home as soon as possible. She has been busy drawing plans for a chalet she intends building on the bluff."

Connie returned with the old trapper, the latter leading Pegasus.

At dinner Connie showed no signs of her former shyness. She was as self-possessed, calm and perfectly poised as a goddess. A glad light filled her eyes as Gilla and his crew of "redshirts" filed into the big dining-room. She sprang to her feet and greeted them joyfully, shaking hands with each and everyone.

"I'm so glad to see you, Jack," she smiled.

The big logger took her tiny hand in his. "We're sure glad to have you with us again, Connie."

"May I bring Andy in to dine with us, Mr. McLean?" she asked as she came back to the table.

Donald nodded assent. She ran gleefully to the kitchen, and a moment later the loggers grinned broadly as she came through the door leading the protesting cook by the arm.

"Now," she said as Andy sat down, "we're all here." She looked about her and clasped her hands captivously.

ly. "It seems as though I had been gone for years. And oh, it is so nice to be home again!" She sank to a chair between Andy and the trapper. "Do you remember, Andy, when you were dressed as a butler and danced with John at your party?" She threw back her golden head and her silver laughter filled the room.

Janet was unhappy from the moment of Connie's arrival. She had caught the look of adoration in Donald's eyes as Connie stepped to the station platform. Standing there she had quite definitely abandoned any hope of winning him. And Janet had been so sure that once she had held a place in his heart. A great depression, a great weariness of spirit, settled upon her.

That evening, as Donald walked with his parents by the lake-shore, he turned to his father. "Dad," he said anxiously, "do you think I have made a great mistake?"

John McLean's eyes grew suddenly misty. "Donnie," he began gently. "Mr. Rennie has told us all about you. And no man could speak more highly of another." He drew a newspaper from his pocket. "I haven't you seen this?"

It was Vancouver's morning paper, with a full-page devoted to the visit of the Eastern lumbermen. There were several photographs of the Summit Mill and one of Donald. The paper spoke of him as "the able young engineer whose modern ideas and energy had given to British Columbia a logging plant and mill that were a credit to the Province."

Donald saw the proud light in his father's eyes, and his heart was filled with a great peace.

The next day carpenters and material arrived for the construction of Wainwright's new home. That afternoon Connie, clad in fashionable riding habit, came to the mill office with her foreman to place an order for lumber. Pegasus in silver-mounted bridle and English saddle was proudly rearing. With neck arched he curvetted and reared while Connie sat on his back with that complete lack of self-consciousness that is the heritage of a born horsewoman. Before leaving she rode up the hill among the trailing workers, her irresistible smile bringing an answering grin from the "redshirts," who doffed their hats and shouted a joyous greeting.

All day, pack-horses and men struggled up the hill, staggering under the weight of building material. But although Donald strained his eyes for a glimpse of the golden-haired rider, he saw her no more that day.

(To Be Continued.)

Little Helps For This Week

"Obey My voice, and I will be your God, and ye shall be My people."—Jeremiah vii. 23.

Three roots bear up Dominion; Knowledge, Will; These twain are strong, but stronger yet Obedience: It is the great tap-root that still, Knarred round the rock of Duty, is not stirred. Though heaven-loosed tempests spend their utmost skill.

—James Russell Lowell.

Tenacity of will lies at the root of all courage; but courage can only rise into true manliness when the will is surrendered; and the more absolute the surrender of the will, the more perfect will be the temper of our courage and the strength of our manliness. "Strong Son of God, like the poet, 'Immortal Love, our wills are ours to make them Thine'; and that strong Son of God, to whom this cry has gone up in our day, and in all days, has left us the secret of His strength in the words, 'I am come to do the will of My Father and My Father.'—Thomas Hughes.

Misard's Liniment relieves pain.

Heating By Radio

French Scientist Says Wireless Waves Can Be Used To Warm Homes

Wireless beams from the Eiffel Tower may be employed to furnish heat for the residents of Paris, if tentative plans drawn by French engineers are put into effect.

Heating plants deriving their power from radio waves are operating successfully in Germany, according to Jacques Risler whose report forms the basis of these plans. Risler said that while the question of wireless heating houses is still in the experimental stage, the feasibility of it has been definitely established.

Explaining how the wireless heating plant would operate, Risler said: "In the laboratory two posts were set up about 30 feet apart. The sending post sent out from 400 to 500 volt, current waves of ten to three meters in length. All that is to be done is to interpose on the receiving post circuit a filament 'in vacuo,' and it is raised to an incandescent state and gives out quite appreciable heat. "There is therefore no theoretical difficulty in installing in a house a series of receiving posts which would in reality be just so many electric radiators. This system could be extended ultimately to an entire district or to a whole city, which would derive its heat from one central broadcasting station."

Rents Home By Wireless

Member Of Byrd's Party Closes Deal In New York

Willard Vander Veer, one of the motion picture operators with Commander Byrd's South Pole expedition, closed a lease for a Westchester apartment by radio from a point somewhere near the southern extremity of the world. The lease covers a suite in the Dorset, Bronxville, which had been selected by Mrs. Vander Veer.

Several days ago she sent by radio a description of the apartment, the rent asked and other particulars to her husband in the great expanse of ice near the South Pole, never really expecting that it would reach him. She was surprised, therefore, to receive a message at her home, 431 Homestead Avenue, Mount Vernon, from her husband to close the deal.

Neuralgia succumbs to Misard's Liniment.

California is likely to become the first horseless state in the United States, for horses are rarely used there now except in isolated regions.

NO MEDICINE LIKE BABY'S OWN TABLETS

Once a Mother Has Used Them She Will Use Nothing Else

To once use Baby's Own Tablets is to use them continually—that is as long as there are young children in the home. That is the testimony given us by mothers from all parts of Canada. They all say that they know of nothing to equal the Tablets, that they find them safe and efficient and at the same time pleasant to take.

Mrs. John Hollinworth, Malden, Ont., writes:—"I have three children, the eldest fourteen and the youngest nine months old. I have always used Baby's Own Tablets for them and have found no other medicine to equal the Tablets as a relief for the many ailments of childhood."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach. They drive out constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Foremost Fur Producer

Canada is one of the foremost fur producers of the world. Raw furs are the chief commercial product of the wild life of the northern half of the continent and as such represent the very economic return from large areas in the Dominion.

Great works are performed not by strength, but by perseverance.

Largest Thermometer Seventy Feet Long

Has Been Erected In Museum Tower At Munich

The largest thermometer in the world was recently erected in the tower of the Deutsche Museum at Munich. It is 22 metres—about 70 ft.—long, and shows not merely the temperature of the moment, but the maximum and minimum of the previous day. It is regulated, by another instrument of normal size, connected by electrical apparatus. Not until a thermometer becomes more than about 90 ft. long do you realize how exciting it can be. Blow hot, blow cold, the temperature of the breeze changes from minute to minute. The mercury ebbs and flows like a ripple on the seashore, and the spectator finds difficulty in tearing himself away from contemplation of the restlessness of the atmosphere.

Egyptian papyrus 2,000 years old are in better condition today than some of the paper which went under the printing presses during the World War.

HEADACHE RELIEVED

... QUICKLY

This Purely Vegetable Pill quickly corrects the digestive disturbances, removes the intestinal poisons, and sick headache quickly disappears. Your whole system enjoys a tonic effect, constipation vanishes, and you feel a renewed vigor. Avoid bromides and dope, they are depressing and harmful. All Druggists 25c and 75c per box. **CARTER'S PINK PILLS**

The invisible difference

Many motor oils look alike, but there is a vast difference in the way they perform. Unfortunately this difference is difficult to detect.

The invisible difference which makes one motor oil better than another must be inherent in the crude from which it is made.

There you have the reason why Marvelbe gives better engine lubrication than the refined oil from ordinary crudes. Imperial Oil searched the world over for a better crude—and in South America they found it. From it they make Marvelbe—a pure, carbon-free, full-bodied oil that resists the extreme heats and pressures of modern engine operation.

Aircraft operators prefer Marvelbe because better lubrication means greater safety and longer intervals between overhauls. Motor car owners prefer Marvelbe because it is the ideal oil for modern motors. It ensures greater power, greater flexibility and greater economy.

There is a grade of Marvelbe refined to meet exactly the specifications of your car. Consult the Marvelbe Chart at Imperial Oil service stations and dealers.

SNOW FENCES

Alberta's large expenditure on highways fully warrants the government's decision to erect snow fences along the main traffic routes. If anything more in the form of justification were required, it could be found in the increasing number of automobiles and the resultant gain in traffic volume in all districts.

Twelve miles of fencing will be provided along the most heavily travelled main roads in various parts of the province. To some, it might appear that this falls far short of what is essential, but it is nevertheless recognized that this marks the inauguration of a very commendable auto-snowdrift campaign. The information gained the past winter will be of great value to the highways department in arranging its fencing program for the future.

All-year roads are a vital necessity to any community. Such being the case, there should be full co-operation with the government in its policy to select the troublesome snowdrift spots and keep the roads passable for all vehicles. With the province prepared to do its part on the main highways, local authorities should assist in keeping the market roads open.

In eastern Canada and in states south of the border, snow fencing has been carried out with success, while tractors have also been kept in service. It has been found that to abandon such a policy would mean a serious business loss, while it would also cripple transportation facilities of many communities.—Ex.

MRS. SAMUEL BERRY DIES AT PINCHER CREEK

The death of Mrs. Mary Elizabeth Buffington, wife of Mr. Samuel W. Berry, occurred at her home at 1.45 a.m., on Tuesday, May 7th, following an illness of six weeks, which had been preceded by several years of declining health.

Mrs. Berry's passing makes one more break in the ranks of the old timers, who in those years so long ago formed the nucleus of the history of Pincher Creek. Mrs. Berry, previous to her marriage in Minneapolis in 1888 was a resident of Port Huron, Ontario. Coming west shortly after, Mr. and Mrs. Berry came to the well known Berry Ranch at Chipman Creek. They also lived for a time in Lethbridge and Blairmore, but in the main their place of residence has been in the town of Pincher Creek. Of the marriage there was only one child, Harry, who grew to manhood in this, his native town, but six years ago this month met an accidental death in the sawmill at Lumberton, B. C. His two little children, Miss Molly and Hugh, who now reside at Brooks, are the only grandchildren, and a niece resides in Los Angeles.

Much sympathy is extended to Mr. Berry. The funeral, which was held

AN EMPIRE DAY PROGRAM BY RADIO

The department of education, in co-operation with the University of Alberta, The Edmonton Journal, The Calgary Herald and the radio dealers of the province, is undertaking to broadcast a program to every school in the province on the afternoon of Empire Day next. This experimental broadcast is being undertaken at this time for two purposes, first to provide, under the auspices of the department, a common Empire Day program for all the children of the province, and second, to determine how far it may be possible to reach our schools by radio. Obviously, if this

program can be broadcast in such a way as to reach every school child, wonderful possibilities in the way of programs are at once opened up.

The program which it is proposed to broadcast is as follows:

Chorus—O Canada.

Instrumental—School Orchestra.

Purpose of the Broadcast—The Minister of Education.

Junior Chorus—J. Norman Eagleson, conducting.

Address—His Honour Lieutenant-Governor Egbert.

Song—G. R. Conquest.

Recitation—"This Canada of Ours."

Senior Chorus—J. Norman Eagleson, conducting.

Address—The Premier of Alberta.

Instrumental—School Orchestra. Cornet Solo—Chris. Dewhurst. Empire Day Message—Their Majesties the King and Queen.

School Chorus—"The Maple Leaf," McCauley School.

"God Save the King—J. Norman Eagleson, conducting.

RAILWAY MUST BUILD BRANCH TO ALBERTA MINE

OTTAWA, May 9.—In a judgment handed down yesterday the Board of Railway Commissioners ordered the Canadian National Railway to complete the construction of a branch line in connection with the operations of the Gebo Coal Company, Limited, in

the Rocky Mountain Forest Reserve, in Alberta. The railway to commence operation of this line within four months and to deposit \$50,000 with the commission to defray expenses as guarantee of the undertaking.

BISCUITS FOR BYRD

It may be news to many of our readers to know that a large shipment of purely Canadian biscuits, and biscuits manufactured in western Canada at that, was included in the huge quantity of provisions which Commander Richard E. Byrd took with him to the Antarctic to sustain life for the long period during which his party of intrepid explorers will be icebound in their little camp on the great barrier. The western Canadian biscuit manufacturers to be honored with this order was The Paulin Chambers Co., Ltd., who have manufactured biscuits and confectionery in western Canada for over fifty years, and who, today, are the largest manufacturers of biscuits and confectionery in western Canada, and one of the largest in the Dominion. The biscuits for the Byrd expedition were manufactured in Winnipeg, and of course, were very carefully packed and hermetically sealed in airtight containers, as the health and probably the very lives of the members of the expedition depend on their supplies of food keeping in good condition indefinitely.

THE PASS FIFTEEN YEARS AGO

(The Blaimore Enterprise, 1914)

Feb. 6.—Blaimore leads in the Crows' Nest Pass senior hockey league, having played six games, losing one. Coleman has played five and lost two.

James Millar, principal of the Camrose normal school, has been appointed to take charge of technical schools for mines.

Thirty-seven below zero was registered at Blaimore on Thursday morning last.

Machinery is being installed in the Blaimore flour mill by the Fairbanks-Morse Co.

Edward W. Rowland and Edwin Clifford offer "The Rosary" at the Blaimore opera house on Monday night next.

At Monday night's meeting of the town council, Mr. O. Verquin asked if arrangements could be made to ship himself and family back to the United States. Dr. Mackay was at the same meeting appointed medical health officer.

Feb. 13.—Mr. and Mrs. M. A. Murphy, of Alberta, Canada, are visiting at the home of their brother, Mr. T. J. Murphy, on Hurley Avenue.—Fort Worth Star, Texas.

At a meeting held on Thursday evening at the Presbyterian church the officers of the bible class for 1914 were chosen as follows: Rev. W. H. Muncaster, president; Misses Moir and Williams, vice-presidents; Alex. Granger, secretary.

A lodge of the Independent Order of Good Templars was organized in Blaimore on Friday night last, with the following officers: G. H. Wyckley, chief templar; F. M. Pinkney, vice-templar; J. F. Hunter, chaplain; Harold Pinkney, secretary; Miss V. Keith, assistant secretary; E. L. Schnurri, marshal; H. Keith, deputy marshal; J. B. Harmer, guard; A. J. Johnson, sentinel; Mrs. J. W. Graham, juvenile department; Miss Paton, registrar.

The Women's Guild of the Presbyterian church held their annual meeting on Thursday night. Election of officers resulted as follows: Mrs. W. P. Williams, president; Mrs. L. P. Robert, vice-president; Mrs. J. M. Carter, treasurer; Mrs. W. H. Muncaster, corresponding secretary; Mrs. H. E. Lyon, publications secretary.

ANSWER THIS

So it cost a college girl \$302.20 a year to dress from head to foot. When do they dress from head to foot?—Toronto Globe.

CALGARY ALE and STOUT

Are Obtainable at the Government Vendors Only. They are both Over 14 p.c. Proof Spirits.

Both the beverages are aged in the wood and bottled from the original casks. Matured for one year in oak hogshead. They are really excellent drinks.

This advt. not inserted by the Alberta Liquor Control

Board or the Government of the Province of Alberta.

Pete McPherson and his five-year-old son had a very narrow escape from serious injury and possibly death on Tuesday evening, when the steering gear of the truck driven by Pete suddenly went out of commission, while returning from Coleman. As the truck was heading over an embankment about half way between Coleman and McLaren's Mill, Pete, with remarkable presence of mind, grabbed his little son and threw him

out and then made a leap himself. The little lad sustained some scars on the face, while his father emerged without a scratch. The truck dropped over an embankment about six or eight feet and stood badly wrecked against a telephone pole.

They have a new brand of liquor south of the line and it is known as "North West Mounted," because it always gets its man.

The Power Of Small Things

The following item was recently printed in a large number of newspapers:

"Forty-five years ago there was a strike in an Ohio coal mine. A group of enraged miners took a car of coal, set it afire, and pushed it down into the mine. That fire is still burning under ground, spreading many miles, destroying valuable coal deposits and rendering hundreds of acres of surface ground sterile. Today it threatens to destroy a school building and some homes in a village. Burning beneath them it is undermining the ground and may cause them to collapse. The fire that a moment's anger started 45 years ago certainly turned out to be a bigger thing than the men who started it ever imagined."

There is a moral to this incident which might well be heeded, for, after all, it is but an illustration, a spectacular one, it is true, of almost every day happenings. The moral is that a small act may have far-reaching consequences, either for good or for evil.

A cow kicked over a lamp in a barn in Chicago, and the Great Chicago Fire resulted.

A frenzied student assassinated an Austrian Grand Duke and his wife, and the Great War was the immediate outcome with its sacrifice of ten millions of lives and hundreds of billions of dollars in property and other losses.

An employee is dismissed in anger, and perhaps unjustly, and a nationwide strike follows bringing suffering and ruin in its wake.

A careless workman, or a dishonest contractor, neglects to put a sufficient quantity of cement in the foundations of a building or in the piers for a bridge, or the retaining wall of a dam, and disaster follows taking heavy toll in human lives.

A rotten timber is used in building a ship, and the vessel sinks; a faulty rail is laid in a track, and a train is wrecked; a careless camper neglects to put his fire, and a terrible conflagration wipes out a forest.

And how often has a hasty word, an insulting remark, led to family and business estrangements with dire results to all concerned.

How often, too, has the peace and friendliness of an entire community been destroyed because of the whispered scandal, the unguarded reflection upon the honor and integrity of another, the prejudiced utterance casting aspersions upon those of different races or religious beliefs.

All little things in comparison to their terrible effects and disastrous results!

Fortunately, for the human family, the reverse is also true. We still recall our childhood's interest in the story of the little Dutch boy who by sticking his finger in the small hole in a dam saved his country from inundation. We delight in the personal histories of great men and women who were started on their careers by the kindly, encouraging word of some friend.

We know, too, by personal observation that the mighty oak is born of the humble acorn; that it was in a single kernel of wheat the hundreds of millions of bushels of Marquis wheat annually harvested in Western Canada had their origin.

If we would but remember and give heed to the fact that, just as a pebble thrown into the water causes ever widening circles of little waves to sweep its surface until finally they lose themselves upon the shore, so does every word and act of ours create little circles of influence radiating out into our homes, our offices, our communities and the world at large, and, for good or ill, affecting the lives and future of others and of our country, then, perchance, we would be more careful, more considerate, a little less hasty and impatient of others, and more inclined to extend that degree of sympathy and tolerance to others which we naturally expect will be displayed towards us.

Local Option In India

Voters In Town Of Taraan Went "Dry" To A Man

An astonishing thing has happened in the Punjab. Citizens of the town of Taraan have lately secured from the Provincial Government the privilege of holding a local option election as to whether liquor shops in the town should continue to operate. Over fifteen hundred voters went to the polls and voted "dry" to a man. This is probably the most decisive local option vote yet recorded in any country. The nearest approach to it, possibly occurred in Kentucky some twenty years ago when about the same number of votes were cast, and all were "dry" except those of the two liquor

dealers and their relatives—seventeen in all.

Worms are encouraged by morbid conditions of the stomach and bowels, and so subvert Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away. No destructive parasites can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

Encouraging Business Outlook

Volume Of Business At A High Limit For First Three Months Of Year

Business activity generally in Canada during the first three months of this year was greater than any similar period since the war, according to an official review of the current business situation in the Dominion.

The dollar volume of business, as indicated by bank debits at the clearing house centres, was at a higher level during the first quarter of 1929 than at any similar preceding period since the record was first compiled in 1924. The total in the first three months of the present year was 18 per cent. greater than in 1928, and 53 per cent. in excess of the aggregate in the same period of 1927, the total in the first three months of 1929 being \$11,505,000,000.

I noticed your wife sitting by the window sewing this morning. I thought you told me she was ill?" "So she was; but today she's on the mend!"

Asked which he understood by "foreign entanglements," a school-boy replied, "spaghetti."

Scientists predict a toothless race. The borer is apparently not the only pest threatening the corn crop.

The World's Air Centre

British Ports Will Be Headquarters In Next Decade In Prediction

Only a decade or two hence and airplanes and airships may be leaving British ports for all quarters of the Empire and of the world as regularly as steamers do now. From coast to railway, from sailing ship to the steam and oil-driven levitators of today, from the horse to the car, from the balloon to the airplane the great job of annihilating time and space goes on. And at each new step, in each successive phase, British inventiveness, British engineering, and British pluck are to the fore. In the air as on the waters, Nature has marked us down as the centre of the world.—London Daily Express.

WOMEN WHO SUFFER

Anemia Responsible For Most Of The Ills Of Girls and Women

Medical science shows that most of the ill that afflicts growing girls and women are due to the fact that the blood is either poor in quality or deficient in quantity. This anemia, the cause of low spirits, languidness, the poor appetite, breathlessness, and the aching backs that make life a burden for so many women. There is no need for any woman to suffer in this way, for all the miseries of anemia can be quickly banished by taking Dr. Williams' Pink Pills. It is an established fact that these pills create an abundance of rich blood—their wonderful reputation is based on that.

Thousands of formerly weak and ailing women have cheerfully testified to the fact that they owe their return to good health to Dr. Williams' Pink Pills. One of these is Mrs. Napoleon Gallant, Tighish, P. E. I., who says: "I am a young girl who can strongly recommend Dr. Williams' Pink Pills. Before I began using them I was in an extremely nervous condition. I could not sleep, neither could I eat, and was constantly growing weaker. I got noticed from a doctor, but he did not seem to meet my condition, and then, in the recommendation of a friend, I began to take Dr. Williams' Pink Pills. By the time I had taken a couple of boxes there was no doubt they were helping me. I continued their use until I had taken six or seven boxes when I was again in the best of health. I always keep Dr. Williams' Pink Pills in the house, and if any member of the family feels run-down the pills soon put them in good condition."

The best time to begin taking Dr. Williams' Pink Pills is when you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old-time energy. You can get these pills through any medicine dealer or by mail, postpaid, at 30 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Agricultural Wealth Of Canada

Figures Show The Importance Of Our Basic Industry

The gross agricultural wealth of Canada for the year 1928 is estimated at approximately \$3,027,801,000, an increase of \$19,353,000 over the 1927 estimate.

The total agricultural revenue of Canada last year is placed at \$1,730,004,000 with the following allotments for the nine provinces: Ontario, \$50,821,000; Saskatchewan, \$392,603,000; Quebec, \$277,000,000; Alberta, \$284,028,000; Manitoba, \$148,867,000; British Columbia, \$50,719,000; Nova Scotia, \$40,102,000; New Brunswick, \$34,307,000 and Prince Edward Island, \$21,750,000.

I noticed your wife sitting by the window sewing this morning. I thought you told me she was ill?" "So she was; but today she's on the mend!"

Asked which he understood by "foreign entanglements," a school-boy replied, "spaghetti."

Scientists predict a toothless race. The borer is apparently not the only pest threatening the corn crop.

Minard's Liniment for cuts and bruises.

Headache

Relieved without "dosing." Rub on VICKS

Baby's restless nights might be avoided

Scalded skin and other skin troubles are common causes of restlessness, and often could be avoided by careful bathing with Baby's Own Soap.

Its fragrant lather cleanses and heals baby's skin, and prepares for restful sleep.

"Best for you and Baby too."

Age No Bar To Flying

Lindbergh Says Properly Trained Pilot Is Always Efficient

Lindbergh will be flying as long as he can drive an automobile, he told a group of reporters recently in answer to the query as to whether he expected to taper off his flying as he grows older. In the opinion of America's foremost pilot, an aviator skilled in youth can fly as long as he can drive a car. For a pilot of the old-fashioned type, he said, it might give up the air as greater responsibilities caused many persons to think that he would be safer on the ground.

"I see no reason why I shouldn't fly," said Lindbergh. "If a pilot has been properly trained he is just as good when he is old as when he was young. Some of the best pilots in service today are getting along in years."

Canada Week In Glasgow

Prizes Given For Best Display In Grocery Stores

A "Canada Week" was held recently in the city of Glasgow, Scotland, under the patronage of Hon. Lord Provost Sir David Mason. Canadian products were featured throughout the week and attracted great interest among the population. This was the first shopping week to be organized by the Dominion in Glasgow. Cash prizes to the value of \$1,000 were awarded for the best displays of Canadian products in grocery stores. In England, also, Canada Week was observed at John Barker's great London store, where many show windows and a large floor space were devoted to the displaying of Canadian foodstuffs.

A QUICK WAY TO END BABY'S UPSET SPELLS

"Like other young mothers, I worried every time Baby cried," says a Syracuse, N.Y., woman. "Several times when she was upset or constipated, I fed her castor oil but she couldn't retain it. Our doctor told me to try Fletcher's Castoria because it is harmless and babies like it. That ended my worries and I've used it since for all my children." Castoria never fails to delight mothers by quick way it ends those upset spells and children, such as colic, constipation, colds, etc. That's the reason for its tremendous sale and popularity. Like all good things, it's limited, but genuine Castoria—the purely vegetable product—always bears the Fletcher signature.

Livestock Producers

Eight Provincial Organizations Join Hands To Form One Body

Canadian livestock interests were linked up in a single organization in Winnipeg the other day, when representatives of eight provincial livestock co-operative bodies formed the Canadian Co-Operative Livestock Producers, with headquarters in Toronto. W. D. McKay, of Moose Jaw, president of the Saskatchewan Livestock Producers, was elected president; H. B. Clement, of Toronto, manager of the United Farmers of Ontario, vice-president and treasurer, and J. K. King, of Moncton, N.B., manager of the Maritime Livestock Marketing Board, travelling secretary.

Satisfied Money Was Safe

A man deposited \$10,000 in a bank. A few weeks later he approached the teller and demanded his money. He was asked if he did not want to leave a small balance. "No," he persisted, "I want my money." So the teller counted out \$10,000. By this time a line of people had collected, each one waiting his turn. The man counted the bills very carefully and handed them to the teller. "Here," he said, "put it back. I only wanted to see if it was all there."

The typewriter is credited to C. L. Sholes, printer editor.

Minard's Liniment—good for tired feet.

Final Production Of Radium

Particles Expelled In Final Analysis Appear To Be Lead

Radium is practically the most expensive product in the world and is valued at approximately \$20,000,000 an ounce. New hospital authorities are anxious because their stocks of radium are slowly transmitting themselves into one of the commonest and cheapest of metals. At varying rates, which cannot be controlled by any known scientific methods, it expels five particles from its atomic nuclei, and these five particles are atoms of helium. Radium is a very heavy element, its atomic weight being 226; helium is one of the lightest of elements, with an atomic weight of 4. Thus the original radium after expelling five helium atoms has an atomic weight of 225-4 x 5, or 205. And 205 is practically the atomic weight of common lead. It seems certain, therefore, that the final product of this rare and costly element is simply lead.

Takes Millions Of Years

It has recently been computed that the most remote objects made visible by the largest telescope are so far away that it takes light, travelling at 186,000 miles per second, 140 million years to span the distance between them and us.

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

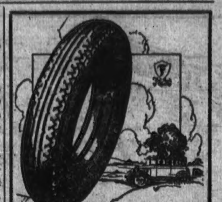

For five cents a tourist can ride for hours around the city of Berlin. A system of transfer makes it possible to change at will from street car, auto bus or subway without paying extra fare.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Farm Is Best

With grade cows selling for more than \$100 at auction sales, with all farm products selling at high prices, this is not the time for young men to be leaving the farm and going to the cities to work for a bare, and often a miserable living.

A town is made beautiful by each one doing his share in fixing up his own property. It's a case of "You in your small corner and I in mine."

Enjoy the 24th on a new set of **Firestone** CUM-DIPPED TIRES

EQUIP your car with Firestones—the toughest, longest-wearing tires on earth—and know wherever you go, your tires will carry you with greater safety and economy than any others you can buy.

"A GREAT TONIC," SAYS MRS. RUSSELL

After Taking Lydia E. Pinkham's Vegetable Compound

Fenwick, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound during the Change of Life for nervous feelings, loss of appetite and to gain strength. It is a great tonic and has taken a dozen bottles of it. It was recommended to me by a friend and now I recommend it to all women for such troubles as come at this time."

—Mrs. W. V. Russell, R. R. No. 2, Fenwick, Ontario.

Aspirin is a Trademark Registered in Canada

REPARATIONS PLAN UNFAIR TO THE DOMINIONS

Paris.—It was confirmed that the plan for revision of reparations payments by Germany, proposed by Owen D. Young, of the United States, at the reparations conference, would leave Great Britain nothing for the Dominions or for arrears of interest on debt. It would award that country just enough from Germany to pay the U.S. from Germany.

The British experts here refute the contention that this is all that is demanded in the Balfour note. They point out the note excludes reparations due the Dominions from its terms.

The absence of direct representation for the Dominions at the conference is considered by the British delegation as all the greater reason for not yielding on the question of the Dominions share of German reparations. The delegation is practically certain to reject that phase of the Young proposals which would reduce the German payments to the Dominions to zero.

Eclipse Of Sun In South Seas

Thousands In Manila See Phenomenon on Thru Smoked Glasses

Manila.—The eclipse of the sun cast a shadowy streak across Polynesia and the South Seas.

Manila witnessed the phenomenon with great interest, as seen here, 90 per cent. of the face of the sun being obscured as the moon's bulk came between the solar rays and the earth. The observation, cast a spell over the city but did not prevent the sun from casting shadows.

If the natives feared the phenomenon there was no sign of it here. Thousands of all ages viewed the eclipse through smoked glasses or other improvised instruments.

Word was eagerly awaited from Manila, south of here, where five expedition expeditions located their instruments to view the phenomenon of a total eclipse.

Disappointed In Arms Parley

Stresemann Discusses Failure To Reach Definite Decision

Berlin.—Gustave Stresemann, foreign minister of Germany, discussed disarmament and the Paris reparations negotiations in a speech at the annual banquet of the Foreign Press Association. Although he specifically disclaimed any desire to give a pessimistic touch to those situations, yet his remarks, especially regarding disarmament, showed disappointment and even alarm at the failure of the Geneva conference to reach concrete and definite decisions.

Oppose Bill For Back Pay

Ottawa, Ont.—None of the Manitoba Liberal members have served notice on the government they will oppose Hon. Peter Veniot's bill to pay \$150,000 to the postal workers who went on strike in 1919 and who were taken back into the service. The dissenting Liberals are: Messrs. Glen, Loyie, Steedman, Brown and Milne. The bill will have to be radically redrafted or what is quite probable, dropped entirely.

Ice Breaks Up On Yukon

Dawson.—The ice in the Yukon river in front of Dawson hotel moved out on May 7, heralding the advent of spring and summer. First prize in the guessing contest on the movement of the ice was divided between Thos. Leach, of Dawson, and Kennedy and Grace Stewart, of Anchorage, Alaska. The approximate amount of the prize was \$7,200.

Falls In Altitude Test

Montreal.—After reaching a height of 17,000 feet, Captain M. E. Jones, chief pilot of the Curtiss-Reid Airplane at Cartierville, was forced to give up his attempt to break the world's altitude record here. Jones made his attempt without the aid of oxygen and in an open cockpit plane.

Adopt Grade Crossing Bill

Ottawa.—Third reading was given in the Senate of the bill amending the Railway Act which provides for the expenditure of \$200,000 a year to eliminate grade crossings.

W. N. U. 1785

Riots Cause Controversy

Part Played By Police In Berlin Rioting Is Criticized

Berlin, Germany.—Bitter controversies continue in the Berlin press and among the public as to the part played by the police in suppressing the Communist riots which broke out on May day. Postmortem examinations of twenty-four victims of the riot are said to have revealed that 17 had been killed by police bullets.

The official inquiry has been unable to establish that a single shot had been fired by a civilian against the police. Only one policeman of the 40-odd injured had received a bullet wound and that wound he had accidentally inflicted upon himself.

One hundred and fifty shopkeepers of the Wedding district, where rioting was said to have been very severe, declared that the streets were quite safe from Communist excesses and that a simple police patrol would have sufficed.

Meanwhile, 45 persons of 117 arrested had been sentenced to short terms of imprisonment for breaking the peace. The rest were released for want of evidence.

Should Not Be Disfranchised

Committee Thinks Persons Receiving Charitable Aid Entitled To Vote

Ottawa.—The parliamentary committee on privileges and elections has decided to recommend a change in the Election Act so that persons receiving charitable assistance would be allowed to vote. The act as it stands prevents persons receiving such assistance either by direct gifts or by living in a charitable institution, from voting.

The committee felt that with no many and varied forms of assistance now being extended to persons in unfortunate circumstances it would be too far reaching to disfranchise them all and it would be almost impossible to differentiate.

The committee refused to agree to the suggestion that the clause preventing judges from voting be eliminated. The general opinion seemed to be that the judges did not want the law changed, they did not wish to be placed in the position of either supporting or opposing the government by casting their ballots.

L. J. Ladner, Conservative, Vancouver South, argued it was about to disfranchise the judges. He considered it was an insult to the judges.

Cannot Attend Function

Alberta Women Unable To Accept Invitation From England

Edmonton.—None of the five Alberta women who were expected to visit England on June 17, when the Privy Council is to hear their appeal from the decision of the Supreme Court of Canada, which decision declared that they are not "persons" within the meaning of their national charter, the British North America Act, will be able to attend a great public function to be held in their honor in London.

The invitation, which also carried with it an offer of assistance, has been tendered by a group of women in Great Britain, including members of the imperial parliamentary and other notable, who have achieved distinction in politics, business, the professions, literature, education and social endeavor.

The Alberta appellants are Mrs. Henrietta Edwards, Mrs. Nellie McClung, Mrs. Louise McKinney, Hon. Irene Parbury, and Magistrate Emily Murphy.

Frown On Practice

Toronto.—A warning to patent medicine companies against the practice of having sample pills and patent medicines thrown at the doors of householders for advertising purposes was issued today by Hon. W. H. Price, attorney-general. He ordered an inquiry into the death of Audrey Clunier, Kitchener girl, who died after eating pills that had been left at her door.

Opium Seizure At Coast

Vancouver.—A seizure of opium valued at more than \$7,000 was made on the R.M.S. Empress of France by officers of the customs preventive service, according to a report from that office. The seizure consisted of 83 tins and was hidden near the ship's funnels. No arrests were made.

Many Russians Drown

Smolensk, Russia.—Many persons were drowned when a wooden dam collapsed while it was crowded with spectators watching the ice flows during a spectacular rise of the river Dnieper. The river was many feet above normal, causing a serious flood.

Marooned Trains Released

Were Held Up During Ten-Day Blizzard In Northern Manitoba

Winnipeg.—Freed from northern snows by a let up in low temperatures, two Canadian National Railway work trains were able to proceed on the way to Churchill, the prairie outlet on Hudson Bay. Both trains had been held up during a ten-day blizzard that had swirled down from the northland almost to the Pas.

After days of almost unavailing effort the snow plows succeeded in battling through the trains, on one of which were 100 men en route to Churchill for the department of railways and canals.

AMENDMENTS TO ELECTION ACT TO BE FORTHCOMING

Ottawa.—Candidates should be allowed to hire automobiles or other conveyances to carry voters to the polls on election day, it was decided by the special committee of the House of Commons reviewing the Dominion Elections Act, Sec. 11, which makes the practice an offence to be deleted. There are at present one-third too many polling stations throughout the country, Colonel G. M. Haggis, former chief electoral officer stated. Approximately \$150,000 would be saved in each election by a revision of subdivision boundaries. Sec. 28 is to be amended to meet the difficulty.

Sec. 27 is to be amended so that an election officer guilty of a wilful act or omission shall be subject to a fine of from \$200 to \$500, and one-half the fine is to go to the informer.

A new section, "3-A," was added, providing that "election notices or documents may be fastened to posts or wooden structures despite any municipal bylaw."

Sec. 4 was amended so that although hand bills or otherwise must bear the name of the printer, the candidate cannot be unseated if they do not. It was explained that the section is to prevent anonymous material being circulated.

Farmers and labor organizations may hereafter contribute to election expenses as a result of removing Sec. 9. The act provided that no association could furnish money unless it was specially formed for election purposes. The chairman, C. G. Fowler, Liberal, Quebec South, said that the section operated unfairly to the case of farmers and labor organizations.

Alaskan Survey Planned

Washington, D.C.—Inventory of the vast resources in timber and hydro-electric power that lie hidden beyond inaccessible mountain ranges in southeastern Alaska is to be taken this summer by navy aviators. Flying photographers with multiple lens cameras will unfold the secrets of hidden lakes and inaccessible forests like a magic carpet beneath them.

New York Doctor Loses Radium

New York, N.Y.—Somewhere in New York, \$25,000 worth of radium is smoldering slowly through its tins and containers and threatening burns to anyone who touches it. It was lost by Dr. J. J. Eller, a skin specialist, who believes he left it in a taxi-cab.

SPOKESMAN FOR GERMANY

Dr. Hjalmar Schacht, president of the Reichsbank, and spokesman of the reparations conference in Paris.

Suspect Grain Mixing

Think United States Soft Wheat Is Mixed With Hard Wheat Of Canada

Vancouver.—Possibility that some United States soft wheat is brought to this port and mixed with Canadian grain is interesting the Saskatchewan Royal Grain Commission just now. Evidence has been produced that at least one such vessel from Seattle was in port, this spring, with a part cargo of soft wheat, and loaded the balance of the ship with Canadian grain. The port warden was before the commission, to explain just what safeguards there are to prevent anything of this sort. His evidence was clear on the point, that in such an event, no government certificate would be issued to cover such a mixed cargo, but that there was nothing to prevent mixing after the Canadian grain had been inspected into the vessel. In such an event, however, the Canadian certificate could not be construed as certifying to such a mixture, though overseas buyers might be deceived as to just what kind of cargo they were buying. It was pointed out that ships en route to the Orient from Seattle, frequently come in here for grain, and many of them have soft American grain aboard. There is a mixture made in Oriental ports of 35 per cent. Canadian hard wheat, and the balance soft, from the United States, but this is not covered by a Canadian certificate.

Plans Flight To Sweden

Second Attempt Will Be Made By U.S. Aviator

Chicago.—Another flight to Sweden from the Middle West, is being planned by Bert Hassell, Rockford, Ill., aviator. Hassell, who piloted the "Greater Rockford" on its projected Rockford-Sweden flight last summer and was forced down in the snow fields of Greenland, declared his next flight would be over a route with fine refueling points.

Hassell predicted that within five years aeroplanes with "pay loads" will regularly between Copenhagen and Chicago. The route from the Middle West northeastward through Canada to Iceland and Greenland, thence to the European mainland, is the safest possible to Europe, he said, with its longest stretch over water being only six hundred miles.

Plans Flight To Sweden

Second Attempt Will Be Made By U.S. Aviator

Chicago.—Another flight to Sweden from the Middle West, is being planned by Bert Hassell, Rockford, Ill., aviator. Hassell, who piloted the "Greater Rockford" on its projected Rockford-Sweden flight last summer and was forced down in the snow fields of Greenland, declared his next flight would be over a route with fine refueling points.

To Circle the Globe

Plane Being Driven Up For Great Zeppelin To Make Flight Around the World

Washington, D.C.—The post office department was advised by U.S. diplomatic officers in Germany that plans are being made for the Graf Zeppelin airship to make a round-the-world trip, starting and ending at Lakehurst, N.J.

A trip from Germany to the United States and back is due to start soon, after which the post office department was advised the airship would return to this country to start circling the globe.

Must Watch His Colors

Party Workers In England Must Be Wide Awake

London.—The party worker who slips lightly from constituency to constituency during the general election campaign will have to keep a sharp eye for his colors. For by a curious practice in British elections, no party has national colors accepted in every constituency. Sometimes the colors in one constituency are completely reversed in another. Occasionally it is a bit awkward for the party enthusiast who wanders far afield.

SAY POOL WILL NOT SELL GRAIN AT A SACRIFICE

Winnipeg.—If western wheat pools are blamed for the grain blockade at Port Colborne and Montreal, they are not concerned at the situation in which they are found. But they refuse to be made the "goats," according to Pool officials' statements in answer to Montreal allegations.

"We could mitigate the situation if we wanted to sell our grain at a sacrifice," commented a senior official, "but we refuse to make our farmers pay for a situation that is not our fault. Don't misunderstand. We are selling a certain amount—we are not refusing sales."

"The world surplus is not of our making. There is an enormous amount of grain in the world, and the buying is not exactly brisk. If we wanted to take sacrificed prices we could move the stuff, but we don't intend to penalize our farmers by doing it."

"Why should we relieve the congestion for everybody's benefit but our own? Montreal officials can blame whom they like—we refuse to be the 'goats.'"

Saskatoon.—A report from Montreal which blames organizations of Western farmers for grain congestion at the port of Montreal and which suggests that Western agrarians should accept a lower price, is taken exception to here by George H. Williams, president of the United Farmers of Canada, Saskatchewan section.

"The report published by the Montreal Star," he says, "purporting to come from an official of the Montreal harbor commission, can hardly be regarded as a very fair statement."

Mr. Williams' statement continues: "The article finds fault with western farm organizations because they, through the agency of the western pools, are endeavoring to hold the price of wheat up to a level where it will pay the cost of production."

"The report indicates that the official of the harbor commission makes it very clear that the profits of the harbor commission are being interfered with and we note the solution is to lower the price of wheat."

"This has always been the solution of commercial organizations having the farmers' produce, simply to pass on to the farmer any misfortune that may come up and safeguard the profits of the handling company. To cover up this demand they suggest that a drop of even a cent would relieve the situation."

"If this is so, how is it that a drop of nine cents in the open market does not relieve the situation? Can it possibly be that all the real wheat is in the hands of the pools, who are holding it for a sensible price, and that all the howling is about a lot of paper wheat in the hands of speculators, which does not exist in real bushels at all?"

"Somebody ought to explain it." "Possibly 100 per cent. control of all the wheat by the pools might not be such a bad idea after all. Apparently its direct result would be to cut out a lot of market canvas and let us know just where we really are."

MARITIME GRAIN RATES CASE IS POSTPONED

Ottawa.—Application of the maritime board of trade for a reduction in grain rates from Fort William to St. John, N.B., and Halifax will be heard at three sittings of the board of railway commissioners. Chairman H. A. McKown and his colleagues on the board, it was announced, will hold local sittings at St. John and Halifax some time in July. Later, a final hearing on the application will take place here.

A rate of 19.34 cents per hundred pounds on grain shipments from Fort William to the two ports on the Atlantic seaboard is sought by the application, as against the prevailing rate of approximately 34 cents. The rate now effective from Fort William to the port of Quebec under the general freight rate revision is now 18.34 cents a hundred pounds.

Hearing of the application was scheduled before the board here, but owing to the illness of Allister Fraser, K.C., counsel for the Canadian National Railways, presentation of the case has been postponed until July.

Heads Victorian Nursing Order

Hon. Geo. P. Graham Re-Elected President Of Board Of Governors

Ottawa.—Right Hon. George P. Graham, was re-elected president of the Board of Governors of the Victorian Order of Nurses for Canada at the concluding annual meeting of the Order here. Hon. W. K. Malkin, of Vancouver, is one of the four vice-presidents.

Tribute was paid to Mrs. James MacCauley, of Vancouver, and Mrs. William Dennis, Halifax, as "the two splendid women with whom the idea of the V.O.N. first originated." Letters of gratitude and congratulations were sent from the conference to Mrs. MacCauley and Mrs. Dennis.

Miss Elizabeth Smellie, chief superintendent of the Order, gave a comprehensive resume of the work during the past year. Victorian Order Nurses attended 65,281 patients and made 515,198 visits, an increase of 34,668 over the preceding year. Of these 45,974 were free nursing visits.

Wheat Nipped By Frost

Grain In Brandon District Will Grow Again Say Farmers

Brandon, Man.—Wheat shoots on hundreds of acres in the Brandon district have been nipped off by continued night frost. Grain that in some cases reached a height of one and one-half inches has been levelled. Farmers state that the grain will grow again without reseed and some contend that the new growth will be a benefit, strengthening the roots.

Investigating Malady Among Horses

Saskatoon, Sask.—Dr. Seymour Hadden, professor of animal pathology at the University of Saskatchewan, and a member of the Dominion research council, has gone to British Columbia at the request of the Dominion government to diagnose an unknown malady which is wrecking havoc among horses of the coast province. He is accompanied by Dr. H. M. Tory, president of the research council.

Photograph Records Of Speeches

London.—Photograph records of speeches of 15 leading politicians, including leaders of the three main parties, are being distributed for use in rural areas in the present campaign. The records will probably prove of great value, apart from their immediate use, as interesting examples of personal styles of oratory.

Must Complete Line

Ottawa.—In a judgment handed down the Board of Railway Commissioners ordered the Canadian National Railway Company to complete the construction of a branch line in connection with the new growth in the Gebo Coal Company, Ltd., in the Rocky Mountain forest reserve, in Alberta.

Oratory Finals

Toronto, Ont.—The Dominion oratory finals will be staged here on May 22. It was announced. Several provincial champions will strive for the right to be Canada's representative at the international oratory championship in Washington, on October 28.

A BROWN STUDY

Brown is a more restful and tasteful color, the car designers and interior decorators of the Canadian Pacific Railway have decided, so this will be the predominant note in the sumptuous new sleepers just built by the company's Angus shops at Montreal specially for service on the Trans-Canada Limited. The carpets and curtains will be a rich brown, and the wood finish a lustrous walnut. Permanent headboards, will give added privacy, dividing each section from its neighbour cubicle fashion. The feature of the rear end equipment on the Trans-Canada will be a Solarium-lounge car, with green-tinted bath-rooms, vitreous sun rooms and smoking rooms for women as for men.

Miss Rebar has resigned her position as matron of the Olivier hospital here and left last week for California.

Sergt. Hudson, A.P.P., is being transferred from Clareholm to Wetsaskiwin, and will be succeeded at Clareholm by Sergt. Broadribb, of Wetsaskiwin.

A chap charged with stealing three bottles of whiskey from the liquor store was recently discharged. The legal adviser for the Crown stated that he had found it impossible to make a case out of three bottles.

Away behind the times: A Calgary daily paper announces that the first straw hat to be seen in use in that fair city was noticed on May the 12th. Several straw hats were in evidence in Blairmore during the latter part of April.

Mrs. Fred Paigett and her children, Hilda and Tillie, left Bellevue last week on a four months' vacation trip to Yorkshire, England.

Miss G. Meier, of Coleman, graduated from the Cranbrook hospital on Monday, and has accepted a position on the Fernie general hospital staff.

The Montreal Gazette remarks: "Science is wonderful. You can now hear speeches about our unparalleled prosperity over a radio that isn't paid for."

The Drumheller Board of Trade received a novel request recently from the Murrefreesboro Chamber of Commerce, Tennessee, when they were asked to send one or more bricks to help build "Tennessee's Sky Harbor," which will be the first building in the United States constructed entirely of material transported by air mail.

Local and General Items

The time is coming when about this only thing to scare a horse will be to see another horse.

Mr. and Mrs. Frank J. Smith, of Hillcrest, were week-end visitors to Lethbridge.

The annual meeting of the Western Canada Fuel Association was held at Drumheller, this week.

Mr. Baker, of Calgary, was the guest last week of his daughter here, Mrs. Gordon Steeves.

The tax rate at Brooks has been set at forty mills for 1929, being 16 municipal and 24 school.

Mr. J. S. Cawsey, of Edmonton, has been the guest of his son, Constable J. Cawsey, A.P.P., at Pincher Creek.

Miss Madeleine Chardon is a visitor to Edmonton this week, attending the annual Alberta Musical Festival.

Son: "I say, mother; you remember you said the dentist was painless."

Mother: "Well?"
Son: "He isn't. When I bit his finger he yelled like mad."

Mr. and Mrs. C. J. Tompkins are visitors to Spokane this week, attending the graduating exercises at Sacred Heart hospital, in which their daughter Helen is taking part.

FOR SALE—Four-Room House, with bathroom, large pantry and inside coal shed. Water piped in from spring. Or will rent. Apply to W. Harrison, Ninth Avenue. [m2,9,16]

PASTURE TO RENT—Sec. 21-7-2-5, 600 acres, all fenced. Divided into four pastures, good water and shelter. On main road between Burnie and Lundbreck. Rental \$100 a year, half in advance. Apply A. N. Cox, Lundbreck P.O., or Phone 798, Cowley.

A party of mining students from McGill University, were interested visitors to the mining plants in this district last week, continuing in their special train coach to Kimberley and Trail.

The many friends of Mr. D. Soda, who for the past fifteen months was confined in Holy Cross hospital, Calgary, from the result of an accident at Rosedale mine, will be pleased to learn that he has been discharged from hospital, and although still confined to a wheelchair, is now convalescing in Calgary.

A young couple intending to get married, called upon the provincial police constable at Natal on Saturday and asked for a license. The constable figured that what was required was a fishing license and forthwith issued one, obtaining the man's signature for same. The couple departed and are understood to be living together since, satisfied that they are married.

The death summons claimed Mrs. William Roberts, an aged resident of Lundbreck, on Wednesday night of last week. The death occurred at Pincher Creek hospital. The remains were laid to rest at Pincher Creek. She leaves to mourn her loss her husband, five sons and two daughters. She was a member of the Lundbreck Women's Institute and had been a resident for many years.

Frank Wheatley, president of the Canadian Mine Workers Union, is in The Pass this week.

A whist drive will be held in the I.O.O.F. hall at Bellevue tomorrow (Friday) night.

The girls who think no man is good enough for her may be right, but she is more often left.

Mr. Shulman, of the passenger traffic department of the C.P.R., was a Blairmore visitor yesterday.

We notice that the police killed a bandit in Chicago. It seems as though no one is safe there any more.

Inspector W. F. W. Hancock, of the Alberta Provincial Police, was in town from Edmonton on official business on Monday.

A local Scotchman decided he would buy a car on the instalment plan, so that he could drive down town to make the payments.

A high powered car and a low powered brain about the steering wheel in one of the worst combinations we can think of.—Calgary Herald.

In England a newly engaged girl gets a ring with a few precious stones in it. In Scotland she receives a ring with precious few stones.

Dr. E. L. Conner, well known medical authority, formerly of Pincher Creek, died at Calgary on Tuesday, aged 48. He was a native of Kitchener, Ontario.

Ninety-six deaths resulted from the explosion of bromide gas that had escaped from an X-ray outfit in a hospital at Cleveland, Ohio, on Wednesday.

Elsewhere in this issue will be found a public notice in connection with the proposed swimming pool. An outline of the proposition will appear in our next issue.

Mrs. Garlick, wife of Rev. J. Garlick formerly of Michel, now of Creston, died Sunday as a result of injuries received in an automobile accident in which Mr. Garlick and another woman were injured. The remains were laid to rest at Cranbrook on Tuesday.

For Entire Week—Fresh killed local Beef, Veal, Pork and Lamb. Full assortment of Cooked and Spiced Meats. Lard, Graded Eggs and fresh Glendale Butter, the climax of quality. Fresh Salmon, Halibut and Cod, also Smoked and Cured Fish, always on hand.—BURNS & CO., LTD.

It is sure time that the attention of the proper authorities was directed to the condition of the main highway through Cowley. A splendid gravelled road is experienced by tourists from Blairmore to Lethbridge, with the only exception of about a quarter of a mile of gumbo through Cowley, where at times it is almost impossible to negotiate without chains.
